In case you didn't know while being confined at City Justice Center I tested positive with one of the world deadliest virus COVID-19. I'm so sick right now body in so much pain. Just curious why am I confined like a "criminal"? The "assault" case that you issued a warrant on me for did you know I was the victim of those charges, that's why the was dismissed those was my daughter friends relatives retaliation on me and wife for calling cops on them for trying to break in our home. Those officers fabricated the whole incident report that why the 911 caller which was my Aunt & wife wrote Judge Baker

confirmed that none of the incident  
report was true. I've been employed  
since released from BOP on several occasions  
I've shown progress on behalf of critical thinking  
all claim to be even "proud" of me but  
now I'm such a bad person? My daughter  
is still at large meaning nobody heard or  
seen her, my wife is devastated every way  
possible we complied with the law and you  
let us down again we got several documents  
us calling 911, I went to court building for  
restraining orders, ask "Grip" for help and still  
the outcome is, this man in jail? That gun  
was in car I had no idea period I  
only moved her car from old parking

Lot to Frontside in driveway, I was  
arrest on my grandmother front some  
place assault took place, I wasn't even  
in car nor did I have the gun on  
my person she had it locked away in  
a love box. I told "Grip" that since my  
daughter ran away I had to help  
grandmother due to her health issues  
she can't walk, Just curious how did  
you help? My wife alone stressed out,  
my daughter still running streets doing lord  
I know what, nobody helping my grandmother  
her house a mess I'm in jail for  
charges I was the victim of! I was  
in house cooking my grandmother breakfast  
when our house was riddled with bullets,  
and now while I'm locked up word  
is that was the whole plan, before they  
shoot up my house call 911 and say  
I had been to their house making threats  
so when they attacked my house it'll  
looked like I was on rampage. I never  
dare none wife and several others can  
verify was home all morning help grandmother  
get up again she can't walk. In report it  
say 4 teens and women pulled up  
shooting. I had sent cops around the  
house several times <sup>prior incident</sup> because the women

allowed my daughter stay there  
not going school, smoking, etc. I got  
documents I was told since she wasn't  
held against her will nothing could be done!  
Again they plan worked the people responsible  
for the lies, and shutting up my house still  
at large daughter still use residence as  
hideout. I reported everything to y'all they  
dry the shooting to place I admitted myself  
in BTC I had severe anxiety attacks  
I sent Mike (PO) document and told  
him I needed help. Why am I  
looked at and treated like criminal?  
I asked for help never got it,  
over and over something authorities did  
"went off my past" and assumed I did  
wrong. I've never committed a crime  
what am I confined for? Again I've  
worked 3yrs just got hired at Auto Zone  
Oct 7, 2020 had 2 jobs again, I guess  
wasn't good enough huh? Not a pinch  
of trouble in 3yrs why wait 40 days before  
released from probation? No those wasn't my  
drugs!! Ssd after 3yrs of showing better  
~~critical~~ "critical thinking" instead of criminal  
thinking and still, why you think cops dropped  
all charges arrested on, they talked to me  
told them everything went on they say "Dam I
